# Blockchain

The potential financial  
market

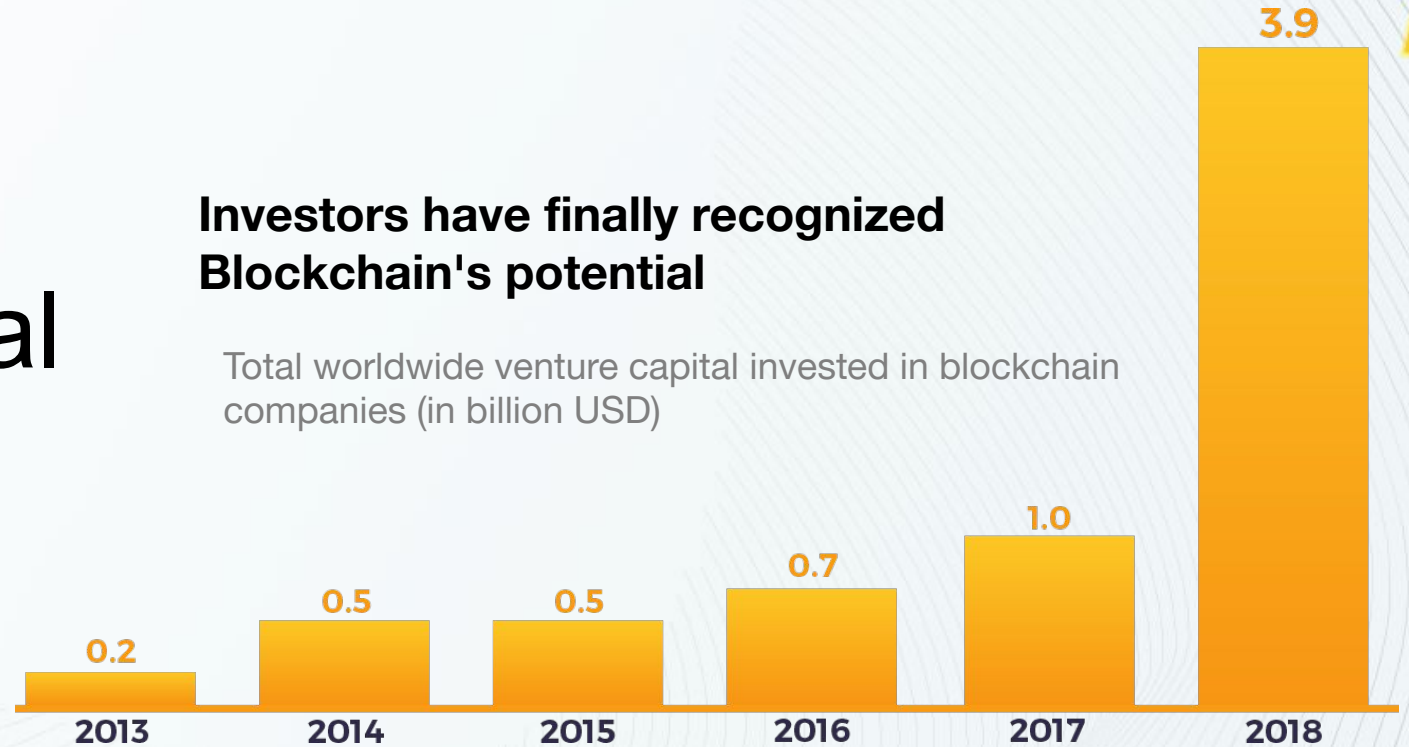

# Blockchain

## The potential financial market

Total worldwide venture capital invested in **blockchain** companies in 2017 has reached 1 billion USD and nearly 4 billion USD in 2018

**Investors have finally recognized Blockchain's potential**

Total worldwide venture capital invested in blockchain companies (in billion USD)

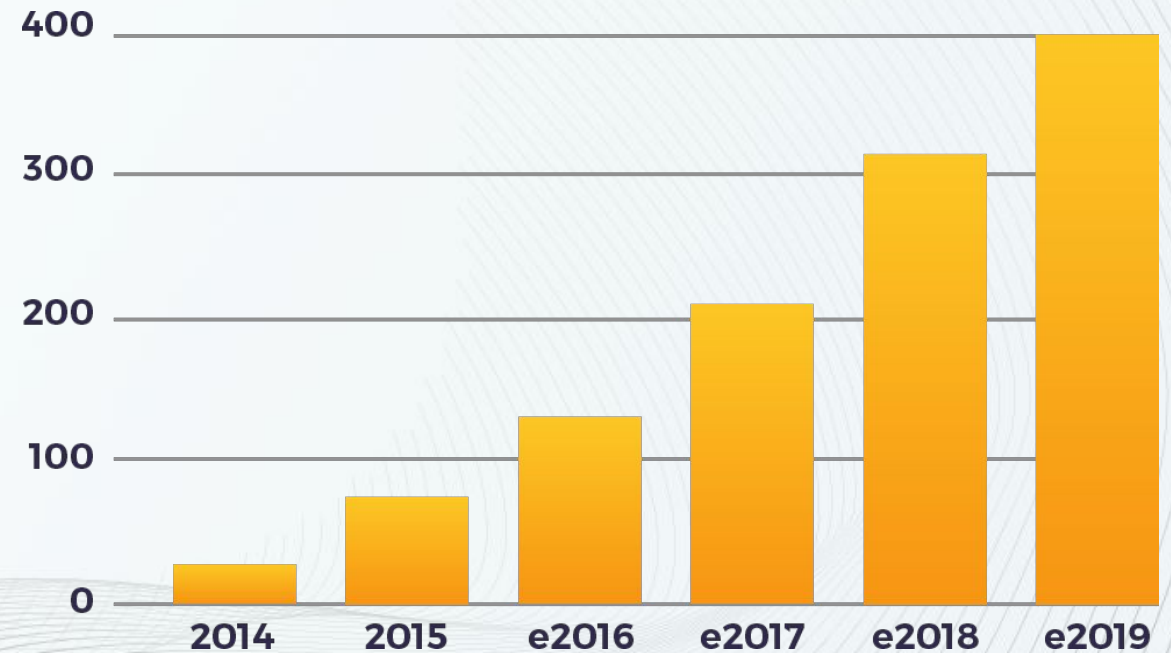

# Blockchain

## The potential financial market

Bank spending on **blockchain** is continuing to increase steadily over the years from 2014 to 2019

Bank spending on blockchain is expected to surge (US\$ millions)

Source: Aite Group

# Blockchain

## The potential financial market

Despite of being such a potential market, blockchain is still a new technology which is complicated to almost of people. This limited the popularity of blockchain and its applicability in real life.

This reality had promoted real blockchain companies to take advantage of technology's advantages and their experiences to help blockchain come closer to people.
